The state of the s

the Island, half-way from the head of the Island to where the government light formerly stood on the Island. There has been a buoy placed on the break. The City of Vicksburg passed the wreck of the Belle St. Louis pesterday, stopping long enough to learn that she had settled to the larboard boiler-deck. A barge lay alongside, to which freight was being transferred. The Eckert was looked for yesterday, but up to this writing we have not learned whether she had arrived or not.

Captain Postal, of the Hard Cash, telegraphs Captain Lightburne, his agent here, that his boat will arrive Monday, and leave again Wednesday evening, her regular day, for White river.

A dispatch from Evansville, yesterday, says: "A new packet company has been organized to ply hence to Memphis. The Fawn will enter the trade on Monday next, Captain Allen J Duncan commanding"

Vicksburg Heraid: "The General Meigs, the United States snagboat, in going up Yazoo river ran afoul of a snag near the foot of Honey Island, and knocked three holes is her hull and came near sinking, and then, efter repairing the damage, went on up the river without attempting to pull the snag that came so near sinking her. The Yazoo river boatmen say she is doing no good whatever in that stream, and might as well be out of there for the service she performs. The truth is that somebody directly interested in the improvement of the rivers ought to be on these snagboats, and not men who are solely interested in using up the appropriation." The Horald is right. Some one who is more interested in safe navigation than in crawing their monthly distribution of river improvement appropriations, should have the supervision of the work of removing obstructions from the channels of rivers. We argued this a long time ago, but we were charged with log-rolling for some favorite. We know of but one individual in the world whose interests we would work for in anything, and that individual's name was pronounced on the day we received the rights of baptism, and he does not want to be su

Ague Cure

Is a purely vegetable bitter and powerful tonic, and is warranted a speedy and certain cure for Fever and Ague, Chills and Fever, Intermittent or Chill Fever, Remittent Fever, Dumb Ague, Periodical or Bilious Fever, and all malarial disorders. In miasmatic districts, the rapid pulse, coated tongue, thirst, lassitude, loss of appetite, pain in the back and loins, and coldness of the spine and extremities, are only premonitions of severer symptoms which premonitions of severer symptoms which terminate in the ague parexysm, succeeder by high fever and profuse perspiration It is a startling fact, that quinine, arsenic, and other poisonous minerals form the basis of most of the "Fever and Ague Preparations," "Specifics," "Syrups," and "Tonles," in the market. The preparations made from these mineral poisons, although they are relatable, and may break the shill do are palatable, and may break the chill, do not cure, but leave the malarial and their

own drug poison in the system, producing quinism, dizziness, ringing in the ears, head-ache, vertigo, and other disorders more for-midable than the disease they were intended to cure. AYER'S AGUE CURE thoroughly eradicates these noxious poisons from the system, and always cures the severest cases. It centains no quinine, mineral, or any thing that could injure the most delicate patient; and its crowning excellence, above its cer-tainty to cure, is that it leaves the system as free from disease as before the attack. For Liver Complaints, Aver's Ague CURE, by direct action on the liver and bil

lary apparatus, drives out the poisons which produce these complaints, and stimulates the system to a vigorous, healthy condition. We warrant it when taken according to

Young Ladies' School AND KINDERGARTEN,

MISS CLARA CONWAY ... PRINCIPAL Modern in Method.

Thorough in Work. Non-sectarian in Character.

THE Principal of the school takes this method of saying to the people of Memphis, that EDUCATION, IN 173 ONE TRUE SENSE, is the object of her work, and that her school for girls is the result of a close and careful study of the best school systems and the best thought of the leading educators of the world. All false and injurious processes of artificial growth have been carefully avoided, and only such methods used as will secure a full, healthy and harmonious growth toward and into a true womanly womanhood. As heretofore, Physical Culture will receive the attention its importance demands. Education after the method of the Boston School of Oratory. Object lessons in the Primary Department upon the plan defined by Prof. Goodale, of Harvard University, and daily lessons in every department upon Health, Current Events and Topics of General interest. Drawing will be included in the Primary Course, and French in the Intermediate. A thorough three-years course in English Literature, supplemented by extra work in the study of German and French authors.
